Donner Outboard Regatta Slated On September 16

The 13th annual Donner Lake Outboard Regatta has been postponed until September 16 and will not be held July 8 as previously planned.

This was announced last night by Hal Welch of Donner Lake Lodge and Associates, who were sponsoring the races this year. Welch said he had contacted Chuck Parsons of Lodi, commodore of the Northern California Outboard Association and had been advised that barring unexpected developments, the regatta could be held at Donner on September 16.

The decision to postpone the races came, Welch said, after Sheriff Wayne Brown inspected the course and discussed the matter with others and decided that it was not entirely adequate for the speed boat runs.

Welch said he had contacted Bob Jamison, who operates the beach at the west end of the lake, and had been told that favorite location would be available in September for the races without cost.

As a result of the postponement, a completely new program will be arranged Welch said, with wider participation from organizations which have assisted in the past in staging the regatta.

The Sportsmen will provide liquid refreshments, beer, soft drinks and coffee, but each participant is asked to bring their own food. A steak barbecue will be held Saturday evening.

The two days will be spent picnicking, fishing and visiting and the caravan will leave for home Sunday evening. Only Jeeps and 4-wheel drive vehicles will be used as a portion of the trail is still muddy and rough, the committee warned.

Final Plans To Be Made For Hospital

The final steps for the expansion program at the Tahoe Forest Hospital should be completed following a meeting with Cox & Liske, Sacramento architects, early next week. Some design changes are up for discussion and will be resolved at this meeting, Administrator J. J. McGlade said.

A special bond issue election has been called by the district for July 17. The voters will be asked to approve a bond issue in the amount $950,000 at this time. It will provide for a new wing, to include a new maternity section, labor room, delivery room, suspect nursery, newborn nursery and maternity patient beds, new pediatric section with its own treatment area, and additional general patient beds.

New major and minor surgeries are provided, together with a new recovery-intensive care unit, central supply department, plant will be remodeled to satisfy minimum requirements of state departments and to provide a workable solution to existing internal problem areas, McGlade declared.

Mountaineers To Meet Fallon After Third Win In Row

Twelve hits and an early seven run lead enabled the Tahoe-Truckee Mountaineers to coast to their third straight Sierra-Nevada semi-professional league win, 16-9 over the Hawthorne Marines from Hawthorne, Nevada, last Sunday at the local ball park.

The Moutaineers exploded for four runs in the first inning, three in the second, and then added six more in the fifth. The Marines got two runs in the second when Hawthorne hurler Wagner homered over the left field fence with one man on base. The visitors also picked up another run in the fifth when third sacker Taszreak homered with the bases empty.

The Moutaineer victory, their third in seven starts, and second in a row since former high school coach Cal Farley took over managerial duties, lifted the winning hom team into fourth place in league standings. Tahoe-Truckee's decision over the Marines avenged an earlier defeat at Hawthorne when the Nevada team beat the locals 8-2.

Mountaineers shortstop Mike Knight and third baseman Tony Kielhofer had four and three hits respectively for the locals. Bill Notley, who joined the team for the first time this season, had a single and double in three trips to the plate.

Truckee will host the Fallon Merchants this Sunday on the local ball field west of town. Game time is set for 2 p. m. Fallon outslugged the Mountaineers 17-9, in their first meeting this season.

SUNBEAMS

By WALTER M. BARRETT

The Lake Tahoe, Truckee, Donner area has been, for many years, the mecca during the height of the short summer season for a constantly growing variety of chiselers. Their nefarious schemes for separating the local business people and the gullible public from their hard earned cash, are truly amazing and ingenious. These itinerant salesmen, with no local or permanent addresses have no "heart" or interest in the mountain communities and are long gone to softer climes during the rugged winters when the pickings are slim, but multiply like the locusts when the weather turns warm. A warning repeated many times over the years, is still good—Ask your chamber of commerce to investigate the product and the salesman before you buy—or are sold.

HOUSE NUMBERING AT TAHOE APPROVED

TAHOE CITY—The Placer County Planning Commission has recommended adoption of a house numbering plan for the North Lake Tahoe area but deferred until July 27 consideration of a street renaming project.

An imaginary line parallel to the lake shore would serve as one base line with numbers increasing with the distance from the lake at the rate of 1,000 numbers per mile.

Numbers north and east of the Tahoe City Y would increase from 0 to 9,000 at the Nevada state line. South of Tahoe City the numbers would increase to 7,000 at the El Dorado County line.

A citizens committee representing post offices, fire departments, the Lake Tahoe Sierra Chamber of Commerce and other groups has developed a list of recommended street names to avoid duplication and confusion, and this will be presented to the planning commission for action next month.

Clarification of procedures for obtaining pier permits were made by representatives of the state lands commission and the army corps of engineers.

Chester Gibbs, planning commission chairman, stressed that permits must be obtained from the county as well as from the state and the army engineers.

Gibbs said one of the problems the county has is to prevent private piers on county owned beaches.

A proposed amendment to a county ordinance was discussed which would relate sign sizes to the frontage of each business property. Frontage of up to 50 feet would be permitted a total sign space of 24 square feet; 50 to 74 foot frontage, 48 square feet; 75 to 99 foot frontage, 2 square feet, and frontage of 100 feet or more, 96 square feet of sign space.

COUNTY GAINS FROM BEVERAGE LICENSES

SACRAMENTO — (CNS) — The state department of alcoholic beverage control announced Nevada County and its cities received a total of $19,328 from a distribution of alcoholic beverage licenses and payments in compromise for the period from September 1, 1961 to February 28, 1962.

This included $9,714 for the unincorporated area of the county.

The state withholds 10 per cent of the license fees and payments in compromise collected for administration expenses. The remaining 90 per cent is distributed twice a year to the counties and cities in the proportion that the amount of fees and payments in compromise in that particular city or county bears to the total amount collected.

DONNER DOINGS

The signs of summer are all around us these days, and it's good to see some of the people around we hadn't seen since winter.

The Melvin Pinkhams are here at their home on Donner from Eureka. Pinky has a new "mighty" motor on his boat and the water skiing should be better than ever.

Patty Trawer has her God-child Lorrie McClain from El Cerrito as her house guest.

Captain and Mrs. McClain will be arriving shortly to pick her up.

Jean and Dick Walker are entertaining Mr. and Mrs. Frank Jones from Parsons, Kansas.

Julie Knoff is back in the area again with her family to stay for the summer.

Miss Prudence Manley is on her way back to New York to spend the entire summer there with her family.

Diana Lynn Pankoke is spending a week with the William McCartys in Sacramento. Diana will get thoroughly spoiled after swimming in Bud's heated pool and then returning to cool, cool Donner Lake.

Mrs. Harold Gilson is home again after spending a week in San Francisco attending the last session of school.

* * *

I am sure there must be much more goings on than this at Donner, but since I have been such a gad-about this past week will have to give up for this time. Part of my gadding was to visit the Frank Whitears at Weimar. Frank and Kitty have a beautiful home there and are thoroughly enjoying working in their gardens instead of running the motel.

So until I get on the ball and dig up a little more news this is it.

* * *

Well, the June meeting of the Donner Lake Fire Department Auxiliary was held at Soda Springs Lodge last Thursday and was fairly well attended. Janet Franklin has taken over as our president after reading a letter of resignation from Virginia O'Bear. We were all sorry to lose Virginia as she was a good worker for our organization, but knowing Janet am sure she will be very successful. It was voted by the members not to have the annual barbecue this year due to the uncertain arrangements of the boat races, making the time too short for proper planning. It was stated however, that this popular event might be held at a later date.

DIVOT-DIGGERS

By BETTY KIELHOFER

A large group from Reno held a tournament and barbecued steak at the Ponderosa on Sunday and this was the fourth consecutive day that the course was loaded with golfers. Alex Stewart told me it was "beyond his wildest expectations." Needless to say, he and all the others who are pulling for the course are 'tickled pink.'

I'm sure the good play will continue now that the vacationers are pouring in. The course is looking so beautiful since they have been working on it. We heard nothing but praise from all the visitors . . . A good turn-out of the Country Club members was there Friday evening, which was our chosen 'work-night' and it was amazing to see what was accomplished in such a short time.

Jeeps and trucks were darting all over the place with men and boys hanging from every side. Many of the ladies grouped together on the first fairway and cleared away rocks and pebbles from the old road area which has been seeded.

The Jensens and Stewarts hosted a wonderful chicken barbecue which was prepared by Zoe Ann for all the participants in the clean-up while Hazel busied herself with the many details involved in this sort of thing. May I add that all these people are doing everything in their power to radiate a warm, friendly atmosphere up there and believe me, it is going over big.

It's a real pleasure just to go up for a cup of coffee . . . Walt Barrett was there and commented that Jack Jensen and Chuck Essegian were the only two men who had ever played in both the Rose Bowl and the World Series . . . but . . . Jackie went even further. He also played four times in the All-Star games and also in the East-West Shrine game . . . quite a record, isn't it?

Next time you see him, ask to see his beautiful, massive World Series ring . . . its most impressive.

Bob Hall, who works with my husband, recently sent a picture home of his German Shepherd which was one of the most pathetic things I have ever seen. Bob decided not tie him up one night so the dog wandered up in the hills returning with his face one solid mass of porcupine quills. They were so closely implanted that he was hardly recognizable as a dog. It almost broke Bob's heart to have him put away but nothing else could be done. It was especially sad to me as his dog was a brother to our own shepher.

Bob would like to start a campaign to rid the countryside of these vicious pests and I can't help but agree . . . Did you see Bill Bates little comic strip in Mondays Examiner? Looks as if the 'Show Me' tour is starting to pay off. See you next week.

and YOU, too, will really be COOKING With GAS!

Our little blushing bride *blushed* because her stove was the *saddest sight* in seven states. Small wonder. She used to cook on a so-called "flameless" (but not *blameless*) range. Boil-overs, caused by *Hangover Heat*, were a constant problem. Poor dear wore her hands and temper raw cleaning up unsightly messes caused by coils that were still *"hot"* when they were *"off."*

Then she switched to wonderful GAS! Boil-overs *banished forever!* She had *1001 different heat settings* at her command. GAS is *on* and *off* — instantly.

We've cooked up a special *bonus buy* on a direct factory purchase. You'll save a *fat $20 bill* if you buy this new GAS range *today*.

You're money ahead when you buy your GAS range from us. We're specialists in GAS appliances, and we service what we sell.

I, Q, O'S WILL RETURN TO AUTO LICENSES

(By Edwin S. Capps)

SACRAMENTO — (CNS) — The state department of motor vehicles is going to put the "I.O.Q." back into the state auto license business.

This is not a misprint and has nothing to do with owing someone some money.

But, back some years years ago when the state converted from a strictly number system for license plates to a three-letter, three-number system, all I's, O's, and Q's were left out. Also left out were any combinations of letters which might form objectionable words. This applied to objectionable words in foreign languages and a team of linguists were called in to check out all possible foreign smut which might creep up in the three letter combinations.

However, it was felt an I looked too much like a 1, and both O and Q could be mistaken for zeros.

This might seem like a small item, but the difference between the number of combinations of license plates possible in using I's, O's and Q's, against only a 23-letter alphabet was the difference between 12,167,000 combinations and 17,576,000 combinations. When you subtract all of the combinations that might be objectionable, it becomes important.

So the department of motor vehicles is using I's, O's and Q's in the new 1963 license plates which are being manufactured at Folsom prison. But they will be used only as the first or second letter of the three-letter combination.

If a license number then is reported with a figure in the first or second position, rather than a letter, it will be easy enough for the department to determine what letter it really was.

The first or second position is even more important in 1963 because the department is converting trailer licenses in 1963 from six numbers to two letters and four numbers. If an I, O or Q were in the third position on passenger auto licenses, the plate then might be confused with a trailer license.

The department said it has more than enough combinations to handle registration at present. However, it's hoped that the license plates to be issued next year will last for 10 years. In that long a period, it's difficult to tell how many different license plates will be needed so DMV is playing it safe by putting the I.O.Q. letters into use.

The department said there is nothing to rumors it had planned to reverse the order to make more combinations by putting the numbers before the letters.

The new plates for 1963, incidentally, will have a black background with chrom yellow numbers and letters. If you want a good definition of what color chrome yellow is, look at your present license plates because that's the color of the background.

The new 1963 plates for autos will continue to be steel. While there has been talk of converting to aluminum plates on the basis they might be more rust resistant, the cost difference still is too high. However, trailer licenses in 1963 will be aluminum, as will some other licenses in small lots, thus providing a test of the two types of licenses for performance.

NEVADA COUNTY IS GAINER FROM TAX

SACRAMENTO — (CNS) — Nevada County received $26,950.96 during April as its share of apportionments of $46,963,651 in highway user taxes, State Controller Alan Cranston announced.

The April distribution was swelled by the annual transfer of $16,211,848 from the motor vehicle fund, Cranston said. This represented the fund's unspent balance as of December 31,1961, after the deduction of appropriation expenditures for support of the department of motor vehicles and California highway patrol.

California produced 17 per cent of the nation's honey crop in 1958.

BAY AREA MEN WIN ANNUAL GOLF MEET

CRYSTAL BAY—George Archer of San Francisco and a nine handicap partner, Dean Zahn of Atherton won the 54-hole North Lake Tahoe Invitational Golf tournament during the weekend. The matches were played on the Brockway, Glenbrook and Tahoe City courses.

Archer and Zahn won with a 31 under par total of 175. Archer shot a five under par 63 on his own ball and was aided six shots by Zahn Sunday.

The team ended with a 13 under par 55 on the final day.

Paul Gardner and his son in law Leland Baker, Jr., were runnersup with 177. Lowell Evans and Henry Aguirre of Reno, Nev., teamed up for a 179 and third money.

George Jackson of Palm Springs, and Jack Hernandez of Antioch, placed fourth with 180. They were followed by Floyd Lowe who was a co-winner last year, and Larry Borgia, both of Los Altos.

Sixth place was a three way tie among teams made up of Mike Korich of Roseville; Joe Rossi of Palm Springs, and Gene Gebbard of Stockton and James Pluch and James Smally, both of Indio.

COMMISSION TO TALK OF ANTLERLESS HUNT

Special antlerless and either-sex deer hunts will be the major topic to be considered by the California Fish and Game Commission at its meeting June 29 in San Francisco. The meeting, which opens at 9:30 a. m., will be held in Room 1194, State Offfice Bldg, 455 Golden Gate Avenue.

Thirty-eight proposed antlerless or either-sex deer hunts for the 1962 season will be considered and the recommendations of the officers who conducted hearings on these hunts will be submitted.

Following testimony on these hunts, the commission will adopt regulations on those which are approved.

COMMITTEE DRAFTS NEW PARK PLANS

CARSON CITY — The Nevada park compact drafting committee has worked out details of its preliminary position on the proposed establishment of a joint California-Nevada park system at North Lake Tahoe.

Committee members agreed to send the proposals approved by the Nevada commission to their California counterparts for discussion. The Nevadans said they are ready to meet any time with the California representatives.

Nevada's position would require preliminary agreement on a description of the park boundaries, the laws which would govern the park and its operation.

The draft was submitted by Russell McDonald, director of the Nevada Statute Revisions Committee. He emphasized the draft was only a preliminary stand and there "probably would be a thousand more recommendations before anything is completed."

TREE PLANTING FOR FORESTS COMPLETED

The Tahoe National Forest spring tree planting program has been brought to a close with the advent of the summer sunny weather, Forest Supervisor H. E. (Hank) Branagh announced. This program was the largest one ever attempted on this national forest and ranks among the all time high of any forest in the California region.

Statistics on the program are somewhat staggering. Some 2,390 acres were prepared for the planting of 1,024,000 trees. A planting force reached the peak of 133 persons. A newly developed mechanical planter was used constantly as well as "Little Beavers" (mechanical diggers carried by a two man planting team). Nine contracts were issued to tree planting firms. Four Tahoe Forest crews worked with the mechanical planter, Little Beavers and hand tools.

Of the trees planted, 932,000 were Ponderosa Pine; 70,000 Sugar Pine; 20,000 Douglas Fir, and 2,000 were Sierra Sequoias, planted near Foresthill.

Plantings were made in the following area: Foresthill, 476,000 trees; Camptonville, 162,000 trees; Truckee, 156,000 trees; Sierraville 164,000 trees, and on the Nevada City district, 46,000 trees.

Trees were planted by the planting machine on 434 acres; the Little Beaver mechanical planter was used on 200 acres; and hand planting was done on 1,754 acres.

Supervisor Branagh stated that this year's planting weather and ground conditions were nearly perfect.

"We expect a high survival percentage," Branagh said "and if the 'normal' summer and fall weather prevails, these newly planted trees should get an excellent start for survival."

Cones of the lodgepole pine, which adhere tightly to the branches, measures one to two inches in length.

The first English-language newspaper published in New Mexico, the Santa Fe Republican, was started in 1847.

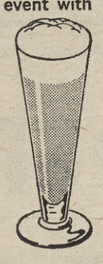
It happened 100 YEARS ago

The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862 . . . the same year that

IN CALIFORNIA, Leland Stanford, the founder of Stanford University, was inaugurated as the eighth governor of California. Throughout the state, folks toasted the event with foaming steins of beer.



For then as now, beer was the traditional beverage of moderation—light, sparkling refreshment that adds a touch of hospitality to any occasion. Californians have always enjoyed the good fellowship that goes with every glass.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.

POWER TODAY
Costs You Less in 1962
Than It did in 1942

A kilowatt-hour of electric power actually costs you about 30 per cent less today than it did in 1942.

Had the prices of electricity risen at the same rate as other consumer prices, you would be paying 80 per cent more per kilowatt-hour than in 1942.

You would be paying about two and one-half times your present electric bill.

How the Christ, truth, brings freedom from sickness and sin will be brought out at Christian Science church services this Sunday.

Scriptural readings in the lesson-sermon entitled "Christian Science" will contain this verse from Jeremiah (17): "Heal me, O Lord, and I shall be healed save me, and I shall be saved: for thou art my praise."

A correlative citation to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (p. 142): "Truth is God's remedy for error of every kind, and Truth destroys only what is untrue. Hence the fact that, today, as yesterday, Christ casts out evils and heals the sick."

president, Selby Calkins, manager, Fred Schultz, Carlton Konarske, Florence Brown, Bethel Van Tassel, Sandy Poulsen, T. L. James, William Elliott, H. E. McCoskey, Ray Plunkett, William Keller, Bob Daneri and Don Beck.

Theresa Sutton of Kings Beach has returned to the North Shore Club again this year. Theresa is daytime dining room hostess as her many friends will be happy to know.

Bob Leathers and Bill Mizner of Kings Beach attended the 1963 Zenith showing at the El Dorado Hotel in Sacramento.

Binnaz Bingollu of Istanbul, Turkey, has joined the staff of the Tahoe City Riviera Resort Clothes Shop. Binnaz is a student at Sacramento State College majoring in political science. Plans to follow her mother's footsteps and be a lawyer.

George and Dean Phillips of Tahoe Vista really entertained guests last week. Dean's sisters, Georgia Morelock and Ina Anderson and her daughter, Sandra, and Sandra's guest, Betty Speed, of Tallulah, Louisiana spent several days with the Phillips. Coming from Hillsborough for a reunion with former Tallulah neighbors were Dr. and Mrs. Marvin Colwell Smith.

Mr. and Mrs. Ed Williams of Arlington, Virginia, renewed friendship with the Phillips. Ed and George were associated with the post office together. Ed has recent been retired.

Mrs. Harry Fish and children of Tracy were other guests.

Mr. and Mrs. Mario Dioguardi and children, Diane and John, of Sacramento stopped over for a visit on their way to New York.

NEW HUNT LICENSES REQUIRED JULY 1ST

New hunting licenses for the 1962 hunting seasons will be required starting July 1, and are now available from license agents throughout the state, reports the department of fish and game. The new licenses will be good through June 30, 1963.

Hunters will probably be startled when they buy their new licenses this year because of radically new method of issuing licenses. The agent will hand them the new "self issuing" license application to fill out. Instead of having the license agent fill out the form, the hunter will do it himself. Then, when the agent puts the appropriate stamp on the application, it becomes the hunting license.

The new self issuing method was devised to save time for the agent and hunter when the license is issued, and to save expense in the printing of licenses.

JOHNSON IS SEEKING LAKE WEATHER UNIT

Congressman Harold T. (Bizz) Johnson of this district has renewed his efforts to obtain adequate weather forecasting facilities for the Lake Tahoe area.

In a presentation made to Francis W. Reichelderfer, chief of the Weather Bureau, Congressman Johnson called to the Commerce Department official's attention the rapid growth of the region around Lake Tahoe which has become one of the nation's outstanding recreation areas.

As a result of this recreation development, many transient aircraft use the airport facilities at the lake and more and more aircraft are being stationed there permanently.

"These pilots need and deserve adequate weather forecasting facilities," Congressman Johnson declared.

"In addition to the need for adequate weather forecasting for the use of commercial, private aviation, I do believe that a better long range forecasting service must be provided not only for the convenience of the thousands upon thousands of permanent residents and visitors to the Lake Tahoe area, but also for the purpose of adequate forest fire prevention.

"California has experienced a series of extremely disastrous forest fire seasons. The cost of fighting these fires exceeds $16 million a year. Adequate weather forcasting facilities could be of tremendous importance in preventing these fires."

WINTER SPORTS SET NEW STATE RECORD

An all-time record for winter sports use on the national forests in California was reported by Regional Forester Charles A. Connaughton.

The record included 1,060,700 skier visits and 1,047,600 snow play visits (people with toboggans, skids, and sleds) making a total of over 2 million visits to national forest winter sports areas during the 1961-1962 season.

It was the first time that the number of visits by skiers exceeded the number of snow play visits. New and improved skiing facilities on the national forests aided in increasing skier use. There were 40 winter sports areas in operation on national forest lands in California last season, Connaughton stated. Eighteen other ski areas are located in the mountains of California.

The winter snowfall provided an average snow use period, but weekend storms with road closures reduced the heavy use normally occuring in February.

At Squaw Valley, the Tahoe National Forest reported over 600,000 visits to the ice skaters area. Approximately 70,000 of the visitors ice skated; others came just to view the famous landmark.
